2.7 RISK DISCLOSURE

Investors must realize that all investments in mutual funds and securities are subject to market risks. The return / dividend cannot be guaranteed and it should be clearly understood that the portfolio of NIT Income Fund is subject to market price fluctuations and other risks inherent in all such investments. The risks emanate from various factors that include, but are not limited to:

Interest Rate Risk

The value of the Fund due to its holding in debt securities may rise and fall as market interest rate change. As interest rates rise, the values of fixed income securities held by the Scheme are likely to decrease and reduce the value of the Scheme's portfolio. The Scheme shall try to minimize this risk by investing in floating rate securities.

Credit Risk

Credit risk is comprised of default risk, credit spread risk and downgrade risk. Each can have a negative impact on the value of a fixed-income security including money market instruments. The management company shall carefully evaluate the entities and instruments before making any investment decision.

- a) **Default risk** is the risk that the issuer/borrower/guarantor will not be able to pay the obligation, either on time or at all. The Management Company shall carefully evaluate the instruments and the issuers before making any commitments for investment.
- b) **Credit spread risk** is the risk that there may be an increase in the difference between the return/mark-up rate of an issuer's bond and the return/mark-up rate of a bond that is considered to have little associated risk (such as a government guaranteed bond or treasury bill). The difference between this return/mark-up rates is called a "credit spread". Credit spreads are based on macroeconomic events in the domestic or global financial markets. An increase in credit spread will decrease the value of the fixed income security including money market instruments.
- c) **Downgrade risk** is the risk that any reputable Credit Rating Agency may reduce the credit rating of an issuer or issuer's securities. Downgrades in

credit rating may decrease the value of those fixed income securities including money market instruments. Issuer and instrument ratings by independent credit rating agencies may also be considered before making any investment decisions.

Liquidity risk

Liquidity risk represents the likelihood that an investor will be unable to sell the security quickly and at a fair price. The Management will carefully examine the liquidity aspect while making any commitment for investment.

Reinvestment Risk

NIT Income Fund will maintain portfolio with weighted average time to maturity not exceeding 4 years. In a declining interest rate economic environment, there is a risk that maturing securities/coupon payments will be reinvested at lower rates, which shall reduce the return of the Fund compared to return earned in the preceding months.

Counter Party Risk

The risk with reverse repo/money market placements transactions are that the other party may default under the agreement or go bankrupt. In a reverse repurchase transaction, the Fund may be left holding the security and may not be able to sell it at the same price it paid for it, plus return/mark up, if the market value of the security has dropped.

Currency Risk

The Scheme may be affected favorably or unfavorably by changes in currencies and exchange control regulations. The income earned by the Scheme may also be affected by foreign exchange rates.

Government Regulation Risk

Government policies or regulations are more prevalent in some securities and financial instruments than in others. Funds that invest in such securities may be affected due to change in these regulations or policies, which directly or indirectly affect the structure of the security and/or in extreme cases a governmental or court order could restrain payment of capital, principal or income.

Voluminous Purchase / Redemption of the Scheme Units Risk

Any significant transaction made by an investor could significantly impact the Scheme's cash flow. If the investor(s) buys a large number of Units of the Scheme, the Scheme may temporarily have a high cash balance. Conversely, if the Unit Holder(s) redeems a large number of Units, the Scheme may be required to fund the redemption by selling securities at an inopportune price. This unexpected sale may have a negative impact on the performance of the Investment.

Derivative Risk

NIT INCOME FUND

Derivatives may be used to limit or hedge potential fund losses associated with capital markets and return/mark-up/coupon rates. This process is called “hedging”. Any use of derivatives has risks, including:

- a) The hedging strategy may not be effective.
- b) There is no guarantee that a market shall exist when the Scheme wants to buy or sell the derivative contract.
- c) A large percentage of the assets of the Scheme may be placed on deposit with one or more counter parties.
- d) There is no guarantee that an acceptable counterpart shall be willing to enter into a derivative contract.
- e) The counter party to the derivative contract may not be able to meet its obligations.
- f) The Stock Exchange(s) on which the derivative contracts are traded may set daily trading limits, preventing the Scheme from closing out a particular contract.
- g) If a Stock Exchange halts trading in any particular derivative contract, the Scheme may not be able to close out its position in that contract.
- h) The price of the derivative may not accurately reflect the value of the underlying security or index.

Other Risks Involved

- a) Mismanagement of the investee company, third party liability whether through class action or otherwise or occurrence of other events such as strikes, fraud etc., in the company in which the investment is made.
- b) Breakdown of law and order, war, terrorist activity, natural disasters etc.
- c) Senior rights of some creditors over other creditors in the event of winding up.
- d) Volatility in prices resulting from their dependence on market sentiment, speculative activities, supply and demand for the securities and liquidity in the market
- e) Failure of financial market, the settlement system, the clearing system or the depository

The Management Company shall adopt a risk management framework under which it can, among other things, diversify the Scheme’s portfolio and alter the various types of Investments depending on market conditions. The Management Company shall try to introduce adequate safeguards for controlling the risks in security selection and portfolio construction process.

2.8 EXTRA ORDINARY CIRCUMSTANCES

Under exceptional (extraordinary) circumstances, the Management Company may declare suspension of issuance and redemptions, invoke a queue system or announce winding-up in such events the investor will probably have to wait for payment beyond the normal period and the redemption amount so determined may be lower than the price at the time the redemption request was lodged. Investors are advised to read the relevant clauses of the Fund's Trust Deed for more detailed information regarding this clause.

2.9 DISCLAIMER

The Units of the Trust are not bank deposits and are neither issued by, insured by, obligations of, nor otherwise supported by the SECP, any Government agency, the Trustee (except to the extent specifically stated in this document and the Trust Deed) or any of the shareholders of the Management Company or any of the Core Investors or any other bank or financial institution.

6.2.2 The minimum amount of investment to open an account is Rs.5,000/- for Growth Units and Rs.100,000/- for Income Units. The minimum amount required to maintain an account of growth units is Rs. 4,500/-. The Management Company reserves the right to alter the minimum amounts stated hereinabove. If the investment in any investor's account falls below the minimum level as a result of revised limits, changes in valuation, redemption, transfer or transmission, the Management Company may instruct the Transfer Agent, under intimation to that investor, to close the account by redeeming the Units at the close of any accounting period at the price applicable to redemptions on such date. For Income Units, in case the amount falls below Rs.50,000/- Units would automatically be transferred to Growth Units without giving any notice to unit holders and his instructions for redemption at regular intervals would cease.

NIT INCOME FUND

After the initial investment, Unit Holders of NIT Income Fund may add a minimum of Rs.1,000/- per transaction in case of Growth Units and Rs. 2,500 in case of Income Units at their convenience. Units of NIT IF (including fractions thereof) shall be issued against the amount received from the Unit Holder(s) in accordance with the procedure laid down in this Offering Document. The Management Company may alter the minimum amount required for opening, maintaining or adding to the account. Provided that in case of an upward change in the minimum amount required for maintaining the account or adding funds, the Management Company shall give 14 days notice to Unit Holders.

- (i) **Growth Units:** The Unit value grows in line with the growth in the NAV, and the Unit Holders shall receive distribution income in the form of cash or bonus units as declared by Management Company. The Unit Holders shall choose one of the following two options:
- a) Growth Units with the option of receiving cash in case of Cash Dividend at the time of distribution.
 - b) Growth Units with the option of receiving additional Units against Cash Dividend at the time of distribution.

However in the case the Management Company declares Bonus Units the same would be applicable for all Unit Holders including the Unit Holders who have opted for Cash Dividend.

- (ii) **Income Units:** The Unit Holders, based on their own consent & instructions and with prior intimation to the Management Company, may exercise the option of redeeming a certain number of Units for fulfilling their requirement of a certain cash amount at Regular Intervals (i.e. monthly, quarterly, semi-annually or annually). Such instructions shall be given in writing at the beginning of any Regular Interval or at the time of purchase of Units. Such units will be entitled to receive dividends in the form of additional Units against Cash Dividend if such units were outstanding at the time of declaration and no redemption request has been lodged there against or redemptions were not pending as per schedule instructed by the investors.

However in the case the Management Company declares Bonus Units the same would be applicable for all Unit Holders including the Unit Holders of Income Units.

- 6.2.3** The Management Company shall, on the 25th of the last month of every Regular Interval, calculate the redemption value to be paid to the Income Unit Holder(s) based on the Redemption Price of that day. Provided that if 25th of the last month of a certain Regular Interval is not a Dealing Day the redemption arrangements of Income Units would be transferred to the next Dealing Day.

6.2.4 Depending upon the instructions given by the Income-Unit Holders, the Income Units are further classified into two types:

- (a) **Flexible Income Units** – The Flexible Income Unit Holders shall, at the time of purchase or beginning of a Regular Interval, authorize the Management Company to decide the quantum of part redemption of their unit holdings at the end of every Regular Interval based on the performance (NAV growth) of the Fund during that Regular Interval.
- If the value of investment increases (due to growth in NAV) during an interval, the Management Company will calculate the number of units to be redeemed in such a manner that the total redemption value of such units is equal to the increase in the value of investment during that interval.
 - If the value of investment falls (due to fall in NAV) during an interval, the Management Company will not redeem any units at the end of that interval.

The amount so redeemed shall be made through payment instruments or transferred to the designated bank account within six (6) working days of the redemption.

- (b) **Fixed Income Units** – The Fixed Income Unit Holders shall, at the time of purchase or beginning of a Regular Interval, specify a fixed cash amount required by them at Regular Intervals and authorize the Management Company to redeem (at the prevailing NAV) such number of units from their holding that in rupee terms is equivalent to the specified fixed amount required at the end of every Regular Interval.

The amount so redeemed shall be made through payment instruments or transferred to the designated bank account within six (6) working days of the redemption. As a result of operation of this Clause, the capital invested may deplete in case sufficient returns are not earned to cover the amount required by the Unit Holder.

6.2.5 The Transfer Agent shall send an account statement to the Unit Holder each time there is an activity in the account. Such statements or report shall be sent by electronic means or ordinary mail to the Unit Holder's address recorded in the register.

6.2.7 The Unit Holder may withdraw funds from the option at any stage by filling out and submitting the prescribed form to the Authorized Branches of the Distribution Companies/Distributor. If the value of the account goes below the prescribed amount as a result of loss in valuation or as a result of application of Clauses

- 6.2.9** All Units and fractions thereof (up to four or more decimal places) represent an undivided share in the Scheme and rank pari passu as to their rights in net assets, earnings and receipt of dividends and distributions. Each Unit Holder has a beneficial interest in NIT IF proportionate to the Units held by such Unit Holder. However, while maintaining the integrity of each Unit's pari passu rights, the Management Company may, for the convenience of investors, issue Units with different features from time to time.
- 6.2.10** Unit Holders may obtain certificates representing the Growth Units they hold by paying a nominal fee of Rs.25/- per certificate. This fee may be revised from time to time by the Management Company. Requests for redemption, transfer or transmission of Units shall be processed only on the production of the certificate(s) if issued earlier. In the event of loss or defacing of certificates, the verification process shall be carried out to the satisfaction of the Management Company / Trustee / Transfer Agent and the associated costs, if any, will be borne by the Unit Holder.
- 6.2.11** The Transfer Agent may register a pledge / lien on any Units in favor of any third party with the specific authority of the Management Company. However, the pledge / lien shall be valid only if evidenced by a statement or letter issued by the Transfer Agent indicating the Units marked in favor of the Pledgee. 6.8 Suspension of Dealing, Queue System and Winding Up

Under the circumstances mentioned in Clause 6.9 below, the Management Company may request the Trustee to approve a temporary change in the method of dealing in Units

6.8.1 Suspension of Fresh Issue of Units

The Management Company may, under certain circumstances, suspend issue of fresh Units. These circumstances may include

- A situation in which the Management Company has decided to terminate the Fund, subject to regulatory approval;
- A situation in which it is not possible to invest the amount received against issuance of fresh units e.g. closure of money markets and/ or scheduled banks etc.; or
- Any other situation in which issuance of fresh units is, in Management Company's opinion, against the interests of the existing/remaining unit holders.

The Management Company shall announce the details of exemptions at the time a suspension of fresh issue of units is announced. Such suspension may however not affect existing Unit Holders, the issue of bonus Units as a result of profit distribution or the option to receive dividends in the form of additional Units. The Management Company shall immediately notify the SECP if fresh issue of Units is suspended and shall also have the fact published, immediately following such decision, in the newspapers in which the Fund's prices are normally published.

6.8.2 Suspension of Dealing in Units

In the event of extraordinary circumstances as mentioned in Clause 6.9 of this Offering Document, the Management Company may suspend or defer dealing in Units. Suspension of redemption of units has to be carried out simultaneously with suspension in issuance of units. The circumstances under which the Management Company may suspend redemption shall be the event of war (declared or otherwise), natural disasters, a major break down in law and order, breakdown of the communication system, terrorist threat and / or activities, closure of the capital markets and /or the banking system or strikes or other events that render the Management Company, Transfer Agent, Trustee or the Distributors unable to function or any other conditions mentioned in the Regulations.

The Management shall ensure that in case of suspension of redemption of Units of the Scheme due to extra ordinary circumstances, the issuance of fresh Units shall also be kept suspended until and unless redemption of Units is resumed.

6.8.3 Queue System

In the event redemption requests on any day exceed ten percent (10%) of the Units in issue, the Management Company may invoke a Queue System whereby requests for redemption shall be processed on a first come first served basis for up to ten percent (10%) of the Units in issue. The Management Company shall proceed to sell adequate assets of the Fund and / or arrange borrowing as it deems fit in the best interest of all Unit Holders and shall determine the redemption price to be applied to the redemption requests based on such action. The Management Company shall provide all redemption requests duly timed and date stamped to the Trustee within 24 hours of receipt of any such request following the queue system. The requests in excess of ten percent (10%) shall be treated as redemption requests qualifying for being processed on the next Dealing Day at the price to be determined for such redemption requests. However, if the carried over requests and the fresh requests received on the next Dealing Day still exceed ten percent (10%) of the Units in issue, these shall once again be treated on first come first served basis and the process for generating liquidity and determining the redemption price shall be repeated and such procedure shall continue till such time the outstanding redemption requests come down to a level below ten percent (10%) of the Units then in issue.

6.8.4 Winding up in view of Major Redemptions

In the event the Management Company is of the view that the quantum of redemption requests that have built up are likely to result in the Fund being run down to an unsustainable level or it is of the view that the sell off of assets is likely to result in a significant loss in value for the Unit Holders who are not redeeming, it may announce winding up of the Fund. In such an event, the Queue System, if already invoked, shall cease to apply and all Unit Holders shall be paid after selling the assets and determining the final Redemption Price. However,

interim distributions of the proceeds may be made if the Management Company finds it feasible.

6.9 Issue and redemption of Units in extraordinary circumstances

The Management Company may, at any stage, suspend dealing in Units and for such periods as it may so decide provided that issuance and redemption may only be suspended simultaneously during extraordinary circumstances. The issue and redemption of Units may be suspended during extraordinary circumstances including closure of the money market and scheduled banks on which any of the securities invested in by the Fund are listed, the existence of a state of affairs which in the opinion of the Management Company constitutes an emergency as a result of which disposal of any investment would not be reasonably practicable or might seriously prejudice the interest of the Fund or of the Unit Holders, a break down in the means of communication normally employed in determining the price of any investment or when remittance of money cannot be carried out in reasonable time and if the Management Company is of the view that it would be detrimental to the remaining Unit Holders to redeem Units at a price determined in accordance with the Net Asset Value. The Management Company may announce a suspension or deferral of redemption. Such a measure shall be taken to protect the interest of the Unit Holders in the event of extraordinary circumstances or in the event redemption requests accumulate in excess of ten percent (10%) of the Units in issue. In the event of a large number of redemption requests accumulating, the requests may be processed in a Queue System and under extreme circumstances the Management Company may decide to wind up the Fund. Details of the procedure are given in Clause 6.8 herein above. Such suspension or queue system shall end on the day following the first Business Day on which the conditions giving rise to the suspension or Queue System, shall in the opinion of the Management Company, have ceased to exist and no other condition under which suspension or Queue System is authorized under the Deed exists. In case of suspension and invoking of a Queue System and end of suspension and Queue System, the Management Company shall immediately notify the SECP and publish the same in the newspaper in which the Fund's prices are normally published.

The Management shall ensure that in case of suspension of redemption of Units of the Scheme due to extra ordinary circumstances, the issuance of fresh Units shall also be kept suspended until and unless redemption of Units is resumed.

The Management Company may announce winding up of the Fund without any advance notice to the Unit Holders, but under intimation to the Trustee and the Commission in the event redemption requests build up to a level where the Management Company is of the view that the disposal of the Fund Property to meet such redemptions would jeopardize the interests of the remaining Unit Holders and that it would be in the best interest of all the Unit Holders that the Fund be wound up. In case of shortfall, neither the Trustee nor the Management Company shall be liable to pay the same.

13.1.2 In the event the Management Company is of the view that the quantum of redemption requests that have built up shall result in the Fund being run down to an unmanageable level or it is of the view that the sell-off of assets is likely to result in a significant loss in value for the Unit Holders who are not redeeming, it may announce winding up of the Fund without any advance notice.

13.1.3 Upon representation to the Commission, by three fourth in value of the total Unit Holders of the Scheme, or if in the opinion of the Commission further continuation of the registration of the Scheme will be detrimental to the interest of the Unit Holders or the market generally, the Commission may cancel the registration of the Scheme.

In case of cancellation of registration, the Management Company shall revoke the Scheme and refund the proceeds to the Unit Holders in such manner and within such time as may be specified by the Commission.

13.3 Winding Up

In case of the termination of the Fund, the Management Company shall be required to wind-up the Fund and refund the net proceeds to the Unit Holders in proportion to the number of units held by them and within such time as may be specified by the SECP.

14. DISTRIBUTION OF PROCEEDS ON REVOCATION:

Upon the Trust being revoked, the Management Company shall suspend the sale and redemption of Units forthwith and proceed to sell all Investments then remaining in the hands of the Trustee as part of the Fund Property and shall repay any borrowing effected by the Trust together with any mark-up remaining unpaid and the bank charges, if any. In the event of shortfall, neither the Management Company nor the Trustee shall be liable for the same.

The Trustee, on the instruction of the Management Company, shall from time to time, distribute to the Unit Holders pro rata to the number of Units held by them, respectively, all net cash proceeds derived from the realization of the Fund Property after making payment as mentioned in clause 22.1.1 of the Trust Deed and retaining such sum as considered or apprehended by the Management Company for all costs, charges, expenses, claims and demands.
