C. Risk Weights Off-Balance Sheet Exposure

The risk weighted assets of any off balance sheet exposure is calculated first converting it to a credit equivalent by multiplying the exposure amount with a credit conversion factor. Then the resulting credit equivalent amount is multiplied by the risk weight associated with the counterparty as given in Table B above. The following credit conversion factors are associated with the off balance sheet items:

Nature of Transaction	Credit Conversion Factor
Financial & other guarantees The obligations which carries the same credit risk as direct extension of credit, such as an undertaking to make a payment to a third party in the event that a counter party fails to meet a financial obligation or an undertaking to a counterparty to acquire a potential claim on another party in the event of default by that party.	100%
Performance related obligations An irrevocable obligation to pay a third party in the event that counterparty fails to fulfill or perform a contractual non-monetary obligation, such as completion of work at a specified date and delivery of goods etc. This includes issue of performance bonds, bid bonds, warranties, indemnities etc.	75%
Underwriting commitments The commitments which require the underwriter to purchase the securities if the issuer failed to sell.	50%
Lending/posting of securities as collateral The lending or posting of securities as collateral. This includes repurchase/reverse repurchase agreements and securities lending/borrowing transaction.	100%
Other Off-balance sheet exposure (a) Commitments with certain drawdown (b) Commitments (e.g. undrawn formal standby facilities and credit lines) for facilities and credit lines with an original maturity of: 1. One year or less 2. Over one year (c) Commitments that can be unconditionally cancelled at any time without notice	100% 20% 50% 0%

Uniform criteria for determining the value of assets held as collateral

- (a) Only Liquid Assets, leased assets, pledged stocks and property having registered or equitable mortgage (where NOC for creating further charge has not been issued by NBFC) shall be considered for taking benefit for provisioning. The aforesaid assets having pari-passu charge shall be considered on proportionate basis of the outstanding amount;
- (b) Hypothecated assets and assets with second charge or floating charge shall not be considered;
- (c) Valuations of leased assets, pledged stocks and mortgaged properties shall be carried out by an independent professional evaluator listed on the panel of evaluators maintained by the Pakistan Banks' Association;
- (d) The evaluators while assigning any values to the leased assets, pledged stocks and mortgaged properties held as collateral, shall take into account all relevant factors affecting the salability of such assets including any difficulty in obtaining their possession, their location, their condition and the prevailing economic conditions in the relevant sector, business or industry. The realizable value of mortgaged, pledged and leased assets determined by the evaluators must take into account the amount that can be realized from the asset if sold in a forced or distressed sale condition. The evaluators shall in their report explain the assumptions, calculations, formula and method adopted in determination of the realizable values;
- (e) The realizable values of leased assets, pledged stocks and mortgaged properties determined by the evaluators shall be subject to verification by the external auditors, who may reject cases of valuation, which in their opinion -
 - (i) do not appear to have been professionally carried out and values determined are unreasonable, or
 - (ii) are not backed by valid documentation of mortgage, pledge or leased assets and are not supported by legal opinion wherever required.
- (f) The categories of liquid assets, pledged stock, leased assets and mortgaged property to be considered for valuation along with discounting factors to be applied would be as under (Apart from the following, no other assets shall be taken into consideration):
 - i) Liquid Assets:
Valuation of Liquid Assets shall be determined by the NBFC itself and verified by the external auditors. However, in the case of pledged shares of listed companies, value should be taken at market value as per active list of Stock Exchange(s) on the balance sheet date. Moreover, valuation of shares pledged

against Financing shall be considered only if these have been placed Central Depository Company of Pakistan (CDC), otherwise these will not be admissible for deduction as liquid assets while determining required provisions.

ii) Leased assets and mortgaged properties:

The value of the leased assets and mortgaged properties to be considered for provisioning purpose shall be the FSV and the FSV once determined, shall remain valid for three years from the date of the valuation during which period the leased and mortgaged assets will not be revalued for provisioning purpose. Also the adjustment factors of 80%, 70% and 50% shall be applied on the value so determined for the purpose of determining provisioning requirement in 1st, 2nd and 3rd year of valuation, respectively. Thereafter, the leased and mortgaged assets shall be revalued and the adjustment factor of 50% shall be applied for all subsequent years.

The FSV of leased and mortgaged assets shall be restricted to fresh revaluation or previous value, whichever is less. In case of NBFCs, licensed by the Commission to undertake housing finance services, FSV once determined, shall remain valid for a period of ten years from the date of valuation and an adjustment factor of 70% shall be applied on the value so determined for the purpose of determining provisioning requirement in respect of housing finance for the said period.

Except for a Housing Finance Company, if a valuation is older than three years, a fresh re-valuation shall be carried out failing which the valuation shall be taken as nil.

(iii) Pledged stocks

The value of the pledged stocks of perishable and non-perishable goods to be considered for provisioning purpose shall be the FSV. In case of pledged stocks, FSV provided by evaluators should not be more than six months old at each balance sheet date. The goods should be perfectly pledged, the operation of the godown(s) or warehouse(s) should be in the control of the NBFC and regular valid insurance for the benefit of the NBFC, premium payment receipts and other documents should be available. In case of perishable goods, the evaluator should also give the approximate date when these are expected to be of no value. The NBFC shall receive monthly stock statements and conduct quarterly inspections of the pledged goods.

(g) Non-performing Finance against which security or in case of lease, additional security is not available, or where mortgaged, pledged or leased assets have not been valued and verified by external auditors, such Finance shall continue to be classified and provided for according to the time-based criteria prescribed in Schedule X.]¹⁴⁶
